

Jim Boomkens

Hi, my name is Jim Boomkens and I am a 20 year old digital designer and music producer from The Netherlands.

When it comes to digital designing, I like to see myself as a Jack of all trades that is willing to help at every part of creating a digital product. My main focus is UI/UX design and Audio design but I am always eager to help at other aspects of creating a product. Improving the user experience of a digital product is always my main priority!

School

H.M van Randwijkschool Aug 2004 - Jun 2013
Davinci College Purmerend (Havo) Aug 2013 - Jun 2018
Communication & Multimedia Design (Hogeschool van Amsterdam) Sep 2018 - Current

Work

McDonalds Crew member Sep 2018 - Current

McDonalds is my current side job. I really like working there. We have great team and you learn a lot about working as a team.

Graphic Design Ruud Schoen Sep 2018 - Feb 2020

I started taking freelance graphic design jobs from Ruud Schoen. This gave me a lot of insights about working as a freelance graphic designer. Ruud is a really nice guy who gave me the freedom to learn about the industry of graphic design.

Ruud Schoen (+31 6 21817913)
The cooperation with Jim was very pleasant. I have worked with Jim on multiple projects for my own work aswell as for clients. Jim doesn't need a lot of explanation to know what he needs to do and he always works hard and asks questions when important design decisions are being made. I would suggest Jim as a good option for a variety of design work.

Internship Maatschap voor Reclame Apr 2020 - June 2020

During my internship at Maatschap voor Reclame I worked with Edward Bardoul. He gave me different jobs to do like: graphic design, motion design and animating. Thanks to Edward, I got a really nice job as a freelance designer at Betpukka.

Corporate Treasurer IAM Core Feb 2020 - Feb 2021

During 2020 I was the corporate treasurer of the study society IAM Core. This was during the COVID-19 pandemic and IAM Core was looking for a new corporate treasurer. This looked like a lot of fun so I signed myself up. During the COVID-19 pandemic I created a financial plan for IAM Core.

Graphic Design Betpukka Apr 2020 - Jan 2021

During my internship at Maatschap voor Reclame I had a task of creating a re-design of the Betpukka online casino website. The owner of Betpukka liked the re-design so much that he asked if I wanted to work for him as a freelance designer. I had a really good time working at Betpukka, creating logo's and helping to improve the website.
